effective exchanges of information. This skill also fosters deeper empathy, allowing individuals to better grasp others' perspectives and emotions, which strengthens relationships and enhances interpersonal interactions. Additionally, active listening equips participants with techniques for addressing and resolving conflicts constructively, ensuring that all parties feel heard and understood, thus promoting more productive and respectful discussions. Overall, these outcomes contribute to better communication, stronger relationships, and more effective problem-solving.

Brief content of the event:

Aalim Muhammed Salegh College of Engineering organized a “Session on Active Listening” at Abdul Kalam Auditorim. The seminar was conducted for First year students of Aalim Muhammed Salegh College of Engineering. The name of guest speaker was Ms.C.Abhinaya, Asst. Professor , Aalim Muhammed Salegh College of Engineering. She shared cases and their impacts of Active listening which is a communication technique that involves fully focusing on, understanding, and responding to a speaker. It requires giving undivided attention, avoiding interruptions, and using verbal and non-verbal cues to show engagement, such as nodding and maintaining eye contact. Key components include reflecting on the speaker’s message, asking clarifying questions, and providing thoughtful feedback. Active listening helps ensure that messages are accurately received and understood, fosters empathy, and builds stronger, more respectful relationships. This approach is essential for effective communication, conflict resolution, and collaborative problem-solving.

REPORT OF THE PROGRAMME

ONSESSION ON PRIVACY IN SOCIAL NETWORKING

College Name: AalimMuhammed Saleghcollege of engineering.

Date: 01.03.2021

TYPE OF EVENT	Online Session
VENUE	Online meeting
TIME	11:00 am
CONDUCTED BY	Aalim Muhammed Salegh College of Engineering
ORGANIZED FOR	First Year Students
NAME OF THE COORDINATOR	Dr.K.Sureshkumar Associate Professor
ATTENDANCE	80
Resource Person	Ms. Nancy Jabarani N S, Asst. Professor Aalim Muhammed Salegh College of Engineering
Objective of the Event	The objective of public speaking is to effectively convey ideas, information, or messages to an audience in a way that informs, engages, and persuades. It aims to capture the audience's attention, present content clearly and persuasively, and foster a connection with listeners. Through public speaking, speakers seek to influence opinions, motivate action, and enhance understanding on a specific topic. The goal is to deliver the message confidently and compellingly, using appropriate language, tone, and body language to ensure that the audience not only receives the information but also responds positively. Ultimately, public speaking is about making an impact, whether by educating, inspiring, or driving change.
LEARNING OUTCOME	The learning outcomes of public speaking include a significant enhancement in communication skills, enabling individuals to

articulate ideas clearly and effectively in various settings. Participants often experience increased confidence, which translates into greater self-assurance when speaking before an audience and in other areas of life. Public speaking also fosters effective audience engagement, teaching speakers how to capture and maintain attention through dynamic delivery and engaging content. Additionally, it develops persuasive abilities, allowing individuals to influence and motivate others with structured arguments. Organizing and structuring information logically becomes second nature, improving overall presentation quality. Public speaking training also improves adaptability, as speakers learn to adjust their style based on audience feedback and context. Skills in handling questions and feedback are refined, alongside a deeper understanding of nonverbal communication, which helps in reinforcing verbal messages. Participants learn stress management techniques to perform well under pressure and effectively integrate feedback for continuous improvement. Collectively, these outcomes contribute to stronger interpersonal skills, enhanced professional opportunities, and personal growth.

College Name: Aalim Muhammed Salegh college of engineering.

Date: 01.08.2021

TYPE OF EVENT	Online Session
VENUE	Online meeting
TIME	11:00 am
CONDUCTED BY	Aalim Muhammed Salegh College of Engineering
ORGANIZED FOR	First Year Students
NAME OF THE COORDINATOR	Dr.K.Sureshkumar Associate Professor
ATTENDANCE	73
Resource Person	Ms. Nancy Jabarani N S, Asst. Professor Aalim Muhammed Salegh College of Engineering
Objective of the Event	The objective of public speaking is to effectively convey ideas, information, or messages to an audience in a way that informs, engages, and persuades. It aims to capture the audience's attention, present content clearly and persuasively, and foster a connection with listeners. Through public speaking, speakers seek to influence opinions, motivate action, and enhance understanding on a specific topic. The goal is to deliver the message confidently and compellingly, using appropriate language, tone, and body language to ensure that the audience not only receives the information but also responds positively. Ultimately, public speaking is about making an impact, whether by educating, inspiring, or driving change.
LEARNING OUTCOME	The learning outcomes of public speaking include a significant enhancement in communication skills, enabling individuals to

articulate ideas clearly and effectively in various settings. Participants often experience increased confidence, which translates into greater self-assurance when speaking before an audience and in other areas of life. Public speaking also fosters effective audience engagement, teaching speakers how to capture and maintain attention through dynamic delivery and engaging content. Additionally, it develops persuasive abilities, allowing individuals to influence and motivate others with structured arguments. Organizing and structuring information logically becomes second nature, improving overall presentation quality. Public speaking training also improves adaptability, as speakers learn to adjust their style based on audience feedback and context. Skills in handling questions and feedback are refined, alongside a deeper understanding of nonverbal communication, which helps in reinforcing verbal messages. Participants learn stress management techniques to perform well under pressure and effectively integrate feedback for continuous improvement. Collectively, these outcomes contribute to stronger interpersonal skills, enhanced professional opportunities, and personal growth.

their skills in structuring and delivering coherent, persuasive arguments on diverse topics without prior preparation, which fosters greater confidence and adaptability in public speaking. Additionally, they develop critical thinking and problem-solving abilities, as they learn to organize their thoughts rapidly and articulate them clearly, which are valuable skills both in professional and everyday contexts.

Brief content of the event:

The Aalim Muhammed Salegh College of Engineering recently hosted a workshop on Extempore speaking, led by Ms. Al Muthassir Farhana M, Assistant Professor at the college. This workshop aimed to equip participants with the skills necessary for effective impromptu speaking by focusing on techniques for quick thinking, organizing thoughts under pressure, and delivering clear and persuasive speeches. Abhinaya C shared valuable insights and practical tips to help attendees enhance their public speaking abilities, engage their audience effectively, and build confidence in handling spontaneous topics.
