“Patent Search and Patent Mining”

Course Details:

Resource Person:

Prof.Dr.N.R.Shanker , Professor, CSE, AMSCE

Programme Schedule : 16.09.2020(Wednesday).

Time: 10:00am to 12:30 pm

Venue: Placement Cell

Course Objectives:

An invention's degree of uniqueness from previously existing prior art is what a patent search is used for. In order to assess the novelty and inventive step of the invention, it is desirable to identify all pertinent previous art. Owing to several limitations, including linguistic ones,

Report on Seminar: "Patent Search and Patent Mining"

Organized by:

IPR Cell, Aalim Muhammed Salegh College of Engineering

Date:

16th September 2020 (Wednesday)

Time:

10:00 AM to 12:30 PM

Venue:

Placement Cell

Resource Person:

Prof. Dr. N. R. Shanker, Professor, Department of Computer Science and Engineering, AMSCE

Overview:

The IPR Cell at Aalim Muhammed Salegh College of Engineering organized a seminar on "Patent Search and Patent Mining," aiming to educate students and staff about the techniques and importance of conducting thorough patent searches. This knowledge is essential for evaluating the novelty and inventive step of new inventions by comparing them against existing prior art.

Objectives:

The seminar focused on:

- Understanding the purpose of a patent search and the concept of prior art.
- Learning methods to identify pertinent previous art.
- Discussing challenges in patent searches, including linguistic limitations and ways to overcome them.

Attendance:

A total of **50 participants** attended the seminar, comprising:

- **40 students**
- **10 staff members**

Highlights:

Prof. Dr. N. R. Shanker shared valuable insights into the process of patent mining, covering the importance of a systematic approach to ensure comprehensive prior art searches. He emphasized that understanding existing patents is crucial to avoid infringement and enhance innovation.

Conclusion:

The seminar was successful in raising awareness among students and staff about the significance of patent searches in the research and development process. Participants expressed appreciation for the resourceful session and the practical knowledge imparted by Prof. Dr. N. R. Shanker.

REPORT ON WORKSHOP: "3D PRINTING"

Organized by:

Aalim Muhammed Salegh College of Engineering

Date:

21st January 2023

Time:

11:00 AM to 3:30 PM

Venue:

Mechanical Department Block

Resource Person:

Dr. S. Ramkumar, Assistant Professor, AMSCE

Overview:

The Mechanical Department of Aalim Muhammed Salegh College of Engineering organized a workshop on "3D Printing," providing students and staff with a hands-on experience in understanding the basics and advancements of 3D printing technology. This workshop was designed to introduce participants to the practical aspects of 3D printing, its applications, and its impact on various engineering fields.

Objectives:

The workshop aimed to:

- Familiarize participants with the fundamentals of 3D printing technology.
- Provide hands-on experience in operating 3D printers.
- Explore the applications of 3D printing in engineering, manufacturing, and design.
- Discuss recent trends and innovations in 3D printing.

Attendance:

A total of **49 participants** attended the workshop, including students and faculty members from different departments.

Highlights:

Dr. S. Ramkumar led the session with an introductory lecture on the principles of 3D printing, its history, and how it has evolved over the years. Participants were then given a demonstration on the use of 3D printers, including the setup, material selection, and basic troubleshooting techniques. The session concluded with a Q&A segment, where participants engaged in discussions about potential applications and career opportunities in the field of 3D printing.

Conclusion:

The workshop was a valuable learning experience, providing participants with foundational knowledge and practical exposure to 3D printing. Attendees appreciated the interactive and insightful presentation by Dr. S. Ramkumar and expressed interest in attending more advanced sessions in the future.

" FACULTY TRAINING PROGRAM ON MEP "

Organized by:

Aalim Muhammed Salegh College of Engineering in Association with Unique MEP Engineering Academy Pvt. Ltd.

Date: 20th February 2023

Time: 04:00 AM to 06:30 PM

Venue: Maulana Abul Kalam Azad Hall

Introduction: The Faculty Training Program on MEP (Mechanical, Electrical, and Plumbing) was organized by Aalim Muhammed Salegh College of Engineering in association with Unique MEP Engineering Academy Pvt. Ltd., a leading finishing school for engineering graduates. The event took place on February 20, 2023, from 4:30 p.m. to 6:00 p.m. at the Maulana Abul Kalam Azad Hall. The program aimed to enhance the knowledge and skills of faculty members in MEP design and implementation, with a focus on training and development in the field. A total of 25 participants attended, making it an enriching session for the attendees and adding value to the engineering curriculum at the institution.

Program Overview: The event began with an introduction by Prof. Dr. S. Sathish, Principal of Aalim Muhammed Salegh College of Engineering, who welcomed the attendees and emphasized the importance of MEP in the engineering field. He highlighted how such programs help bridge the gap between academic learning and practical applications, making students more industry-ready. The principal's opening remarks set a positive tone for the event and underscored the college's commitment to continuous faculty development.

Resource Persons: The resource persons for the program were experienced professionals from the Unique Group of Companies. The keynote speaker was Mr. Mohamed Sherfuddin R, the Chairman of Unique Group of Companies. Mr. Sherfuddin shared his insights on the latest trends and advancements in MEP, drawing from his rich experience in the field. His presentation covered key aspects of MEP systems, including design, implementation, and maintenance. He also discussed the growing demand for MEP professionals in various industries and the need for engineering graduates to gain practical knowledge in this area.

Additional resource persons included Er. Deepak S and Er. Imran Sherif A, both BIM Managers, and Er. Abuthaheer S, Senior MEP Design Engineer. Each of them brought a unique perspective to the training session. Er. Deepak and Er. Imran focused on Building Information Modeling (BIM) as it relates to MEP, sharing practical insights on how BIM is transforming MEP design by enabling more accurate planning and reducing errors in construction projects. Er. Abuthaheer delved into the technicalities of MEP design, discussing best practices and strategies to ensure efficiency and safety in MEP systems.

Content and Key Takeaways: The program covered a range of topics relevant to MEP, including MEP design principles, energy-efficient systems, safety protocols, and integration of BIM in MEP projects. The speakers explained complex concepts in a simplified manner, making it easier for faculty members to grasp. Participants were encouraged to ask questions and engage in discussions, which made the session interactive and dynamic. The speakers also highlighted the importance of continuous learning and staying updated with technological advancements in the MEP sector.

One of the main takeaways from the program was the emphasis on practical training for students in MEP. The faculty members were encouraged to incorporate MEP-related projects and case studies in their teaching, which would enable students to gain hands-on experience and become more industry-ready. The resource persons also suggested ways to align the curriculum with industry needs, especially by focusing on the integration of sustainable practices in MEP design.

Conclusion: The Faculty Training Program on MEP was a successful event that provided valuable insights and practical knowledge to the participants. The involvement of experienced professionals from Unique MEP Engineering Academy enriched the learning experience for the attendees. With 25 faculty members attending, the program served as a stepping stone towards creating a more practical and industry-aligned engineering curriculum at Aalim Muhammed Salegh College of Engineering. By imparting MEP expertise to faculty members, the program has set a foundation for improved engineering education that emphasizes both theoretical knowledge and practical skills in MEP systems. This initiative reflects the college's commitment to excellence and industry relevance in its educational offerings.

Workshop on “Web Development”

Course Details:

*Conducted By
AMSCE CSE Student Association*

Programme Schedule : 27.02.2019-28.02.2019

Time: 09:00am to 3:50 pm

Venue: CSE Department Computer Lab

Course Objectives:

- *To create, build, and maintain websites.*
- *Includes Web Design and Web Publishing*

REPORT ON WORKSHOP: "WEB DEVELOPMENT"

Organized by: Aalim Muhammed Salegh College of Engineering
AMSCE CSE Student Association

Date: 27th February 2019 - 28th February 2019

Time: 9:00 AM to 3:50 PM

Venue: CSE Department Computer Lab - Lab 2

Conducted By:

- **Mr. Sheik Shoeb** (III CSE 'B')
- **Mr. Fuzail Rayan** (III CSE 'B')
- **Mr. Sharafath** (III CSE 'B')
- **Mr. Naveen Kumar** (III CSE 'B')
- **Ms. Nausheen** (III CSE 'B')
- **Ms. Sama Thareen** (III CSE 'B')
- **Ms. Raziya Begum** (III CSE 'B')
- **Ms. Jasmine Sulthana** (III CSE 'A')

Overview:

The AMSCE CSE Student Association conducted a two-day workshop on "Web Development" aimed at second-year Computer Science and Engineering (CSE) students. The program focused on providing foundational skills in website creation, design, and publishing, with practical exercises in the CSE Department's Computer Lab.

Objectives:

The main objectives of the workshop were to:

- Equip students with the skills to create, build, and maintain websites.
- Introduce web design and web publishing principles.
- Provide hands-on experience with essential web development tools and technologies.

Attendance:

Out of **30 second-year CSE students** **27** has participated in this workshop.

Highlights:

The workshop was conducted by a team of skilled third-year CSE students who shared their knowledge and experience in web development with their juniors. The sessions covered the basics of HTML, CSS, JavaScript, and other web development tools, enabling participants to design and publish their own web pages by the end of the workshop.

Participants engaged in various practical tasks under the guidance of the trainers, who ensured a smooth and interactive learning experience. The hands-on sessions allowed students to apply theoretical knowledge and develop functional websites, enhancing their technical capabilities in web development.

Conclusion:

The workshop successfully introduced second-year CSE students to the fundamental concepts of web development. Participants gained valuable skills in website creation and design, which will support their academic and professional growth in the field of computer science. The interactive and collaborative approach of the trainers was highly appreciated, and students expressed interest in more advanced workshops in the future.

How to Create an Android App With Android Studio

REPORT ON WORKSHOP: "ANDROID APP DEVELOPMENT"

Organized by: Aalim Muhammed Salegh College of Engineering, Department of Computer Science and Engineering

Date: 15th February 2019

Time: 9:00 AM to 3:50 PM

Venue: CSE Department Computer Lab, AMSCE

Resource Persons:

- **Dr. R. Shankar** – Associate Professor & Head of CSE, AMSCE
- **Mr. Mohamed Iqbal** – Assistant Professor, CSE
- **Mr. V. Balaji Vijayan** – Assistant Professor, CSE
- **Mr. K. Rajkumar** – Assistant Professor, CSE, Ramakrishna Polytechnic College, Thiruvottiyur

Overview:

The Department of Computer Science and Engineering organized a one-day workshop on "Android App Development" aimed at providing students with the skills to create Android applications using Android Studio. This practical workshop was designed to enhance students' understanding of Android app development processes and tools, helping them gain hands-on experience in mobile app development.

Objectives:

The primary objective of the workshop was to:

- Teach students how to create Android applications from scratch.
- Provide an understanding of the Android development environment, including Android Studio.
- Equip students with the skills necessary to design and deploy Android apps.

Attendance:

A total of **37 students** participated in the workshop, engaging actively in the hands-on sessions.

Highlights:

Under the guidance of experienced faculty members, students were introduced to Android Studio and the fundamentals of Android app development. The resource persons provided insights into app design, coding, and debugging processes, allowing students to create simple applications by the end of the

session. The interactive nature of the workshop facilitated better learning and understanding, as students could directly apply theoretical knowledge. Participants appreciated the session for its practical approach, with many expressing an interest in attending future workshops on advanced app development topics.

Conclusion:

The "Android App Development" workshop was a successful event that equipped students with valuable skills in mobile application development. The session met its objectives by providing practical insights into Android app creation, and participants left with a strong foundation for further exploration in mobile app development.
