

The institution primary objective is to produce professional students by providing value-based education and enabling the students to face challenges in modern life. As a part of producing professional students, many of our talented students have been identified and to bring out their talents they are encouraged and financially supported by the management to participate in various national events. As a result our students have participated and won prizes in various national level events. The college students of mechanical engineering have won 1st prize in World Robotics Championship (TechnoXian '2017) held on 2017 and they also received award for best Acceleration in the event Rally Car Design Challenge (RCDC) held in Bikaner, Rajasthan at February 2018.

Our team Emblaze, Students of EEE Department won first runner-up for Smart solar rail track fault detection system in Grand finale of Smart India Hackathon 2018 .They called on Chief Minister of Tamil Nadu for winning .The college provides best infrastructure to students to excel in academic career. The institution also well equipped laboratories with latest and advanced equipments , wifi campus, virtual class rooms.

The institution also provides guidance, encouragement and support to bring out the talents of students. Our student MOHAMMAD NAWAZ of ECE Department has done a GUINNESS WORLD RECORDS in college campus by Performing “The Longest Power Strip” (Number of Sockets is 50) in 2018.

The students are educated with value added courses along with curriculum and they are trained to face the interviews effectively. In addition to the curriculum the students are also trained in soft skills and placement training programming from end of second year. The interviews have been arranged and informed to the students from time to time and they are supported to get placement offer in best companies.

To create a good impression on students during interview and to help students to enhance their knowledge, our institution provide guidance to students to participate in NPTEL exams. In addition to the curriculum SSTP sessions for NPTEL have been conducted for students weekly two hours. Students from various departments have completed their NPTEL exams and got certificates. To encourage the students and to increase the participation institution has taken steps to refund half amount of their exam fees on successful completion of the courses enrolled.

The institution has received Best Engineering College Award from Honourable Minister of HRD-Govt of India conducted by Asia educational Summit 2017. In order to get industry perspective and to get better understanding of the recent advanced

technologies and to provide internship to the students in reputed organizations, AMSCE is a recognized partner institute of Pan IIT Alumni Leadership series (PALS). The institution has been recognized as an active, interactive and dedicated partner institute by PALS and has been awarded for participative excellence and Responsive Aligned Proactive Interactive dedicated Partner.

The institution also encourages faculties and financially supports them to pursue their higher studies, Conferences, Faculty Development Programme. Our faculties have received funds for TNSCST Project. The institution also supports expenditures for medicals.

The institution encourages research and development activities and supports faculties to publish paper in journals. As a result, our faculty members have published many papers in reputed journals and two of the faculties have been selected for pre-final in vishvakarma awards 2018.

To promote obedience in students and to make them learn prayer is part of our life, in addition to the mosque in campus, prayer hall have been situated separately for boys and girls students in each block in our campus.

The institution has best infrastructure facilities for learning and sports activities to make a student complete in all dimensions. The institute also facilitates spacious Classrooms, Laboratories with latest equipments, Smart classrooms, Seminar halls, campus central Library, Department Library, and also provides Solved Question Bank to students of all semesters. To make student physically fit, gym has been constructed inside the campus, institution also provides well structured grounds for cricket, basket ball, tennis, athletics, and indoor badminton and volleyball courts. The students have won many medals in state and national level sports events.
