

7.1.1 Measures initiated by the Institution for the promotion of gender equity during the year

Safety of girls is a top priority at every college campus. Nowadays, safe and supportive campus community is both an obligation and a challenge for college administrators and students. Institute should provide a comprehensive range of security amenities especially for girls within the premises, through a dedicated team of security personnel. Safety of girls is a top priority. Nowadays, safe and supportive campus community is both an obligation and a challenge for college administrators and students. Institute should provide a comprehensive range of security amenities especially for girls within the premises, through a dedicated team of security personnel. Women safety is a serious concern; parents believe that the safety of the campus is one of the most important factors in choosing one institution over the other. This problem can only be solved through awareness and prevention programs, dialogue and action. Regular parent-teacher meetings are organized to bring the students –parents and teachers together. A Women Grievance & Empowerment Cell also plays role actively to address the issues of all the female students in the college. Updates are provided about the overall development and performance of the students. Parents’ issues related to their wards are also entertained.
