Good

Nothing

Nothing

Good

..

Very good

Everything is fine

NIL

Teacher should be monitoring the students capacity and the activities so that they can help them out and make them Excel and institute should have a good and happy environment all around so that they can be stress free and they will focus better in the studies cultural should be conducted and many others programs rather than studies this also helps the students to develop they skills in various disciplines

1.some teachers are not completing the full syllabus. So this should be changed

Every thing is good

Use the projectors frequently to more infromation through eyes..

Don't scold like school students

Nize

Set them free then you guys are conduct some other programs are cultural like something because students need some jolly mind neanga epdi jolly ha padika soli tharingalo apdidha avanga study panuvanga iluthu puduchu padina padikura mind ha varadhu....so you have focus on your students mind set too

nill

Spending time with students individually,recall every topics daily,plaining seriously for every class and approach the students and make the need of students.

Nothing will change..as it is past.

Students must be trained to become entrepreneurs instead of job seekers. Practical learning must be inculcated and marks must be awarded based on that only. Timing of all engineering colleges can be reduced by 1 hour in the evening

Nill

Try to understand the problem of the student and sort it out immediately

Change the management automatically improved

Facility improvement

Nil

Conducting daily practice test , give the chance to take seminars, conducting quiz sessions

how do i tell you

Give importance to sports.

Try to complete full syllabus

Very well

Try and teach

Implementing Interactive Learning: Encourage teachers to incorporate interactive methods like group discussions, case studies, and hands-on activities to actively engage students in the learning process, fostering a more dynamic educational experience.

Improve visual class

Improve visual classes

moderate

no comments

1.Field work is important.2) should motivate students

.

We request u to take students to the field often And practice them practically,because only theory classes can't helps a student to survive in the society practically a student should be capable to do the work

--

They are help us to improve our mental health

Encourage,giving examples of real-world,

Do yours best itself

Firstly the institute should focus on a weak students and bring the on campus placement.

Yes

Need to allow mobile phones while in class hours for taking notes

Listen to students

Teacher should understand students needs and give advice to improve them

Promotion of internship

Gafanefesh kifi jefe

Completing the syllabus on time

Everything is fine

1.Projectors can be installed in classes 2.provide permission for IV and internship 3.

Projectors can be installed in every class.

Smart class rooms can be implemented . Symposium and extracurricular activities must be engaged.

They tried to find my strength

Give Proper materials

Need more practical sessions .

Selective questions and brief explanation

Better to have events and extracurricular activities in our college. Which will make the students mind fresh and attentive

Make teaching a two way interaction.Try to reach every student and ask for their doubts.

Less written notes Nd Presentation through lcd projector can be adopted./ Attendance needs to be strict./ Assignment should cover related real life rather than on basis of subject.

1. Using black board instead of wholly depending on projector and power point presentations.
2. I would prefer them to focus on theory and as well as the practical parts of the subject. 3. Using a constant language for communication will help our institute to cherish. But, here, we mostly use English, which is hard for some students to understand.

Not comment able, Need more placements

After finishing the lecture ask questions to every student's about the that lecture.

Good Experience well Friendly

Already excellent teaching

1)To condu

To increase number of staffs,

Using ict tools to understand better

Just ok for me

1.more smart classes,2.find the weakness of the student

Good teaching with better notes and follow up the syllabus with good track

Nthg

Should concentrate more on teaching the concepts deeply and assignments should be given to test the understanding

Required more staff

More then

To let the students get more exposure

Already perfect everything

Teacher attendance is very important

To teaching about some courses and supporting the students to improve the general knowledge.

To Promote extra curriculum activities for students and identify their weakness and give suggestion as per their talent and strength.

Nothing to suggest there are good enough to teach us

Ok Ok Ok

1.To improve the internship and Industrial visit

Provide Good communication teacher

1. Industrial vist is every 3 month onec 2. Advance knowledge to teach like to placement trianning and how many opportunities in career to explain and clarification 3. To teach outside of world life to motivate by students

To take more and more projects for improving for knowledge ..

NOT BAD

Please employ more staffs

Teaching in effective manner without leaving any concept, keep continuing.

teaching in familiar language like tamil

They are doing good no suggestions needed

Perfect

Good teaching

1) More field course program awareness 2) Should increase placement percent with good companies 3) Dont let the old staffs to resign.. See some way to recruit them
